Dear Lee and Dave,

Following the recommendation of the PAC and discussions with the Department of Energy on funding projections over the period when we could run the New g-2 Experiment, I grant Stage I approval to g-2. Of course, there is still a lot of work to do to develop a detailed plan for the funding and various further approval processes which will be required to execute the experiment.

We will consider the experiment ready for the Stage II approval when we determine that the available funding is sufficient for the proposal scope of the experiment and there is a detailed MOU between Fermilab and the experiment.

Despite the cautionary words, we are very pleased that your experiment has met a rather high standard, and we very much hope that this approval can lead to establishment of a soundly based plan. If there is any way we can be of assistance in this, please let us know.

Sincerely,

Piermaria Oddone
